RECEIVED
JAN 20 2017
District of Summerland

Dear Mayor, Dear Council Members, Dear Staff Members,

I herewith submit to you the interim results of the petition of Summerlanders for Sensible Development opposing the High Density Development in the Bristow Valley (13610 Banks Crescent).

Essentially the petition was started in December after the November 14 council meeting.

The timing of the petition was difficult: We braved the cold in the coldest winter we have had in a long time and many people were absent, enjoying warmer climates south of the border.

Despite that difficult situation we collected 962 signatures until January 19th, and still ongoing.

Important is that those people that oppose this development come from all over Summerland and not just Lower Town. Although the proposed development will have a profound impact on the character of Lower Town, we strongly believe, as you know, that the development also has a profound impact on all of Summerland & beyond for the many reasons communicated to you earlier.

At one of your presentations about Economic Development last year, you gave me the impression that the proposed development was a done deal, except that you were still in talks with the Hatchery.

We, Summerlanders for Sensible Development do not think it is a done deal. We are here to help you with your decisions, so, please consult us!

Thank you!

Jos Dronkers
Summerland

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

20.	ANDREW HAMILTON	Hamilton	4805 WOODLAND	Summerland	19 Dec 16

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.

Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

District of Summerland

Date: February 14, 2017
Re: Petition Results opposing Banks Crescent Rezoning

Dear Mayor, Dear Council Members,

I herewith submit to you the additional petition results since the Q & A Meeting of January 19 regarding the Rezoning of 13610 Banks Crescent: 179 additional signatures opposing the proposed development. In total we now have 1141 signatures as of February 14, 2017. The petition is still open and the number of signatures will likely grow.

Important is that the people that oppose this development come from all over Summerland and beyond and not just Lower Town. Although the proposed development will have a profound impact on the character of Lower Town, we strongly believe, as you know, that the development also will have a significant impact on all of Summerland for the many reasons communicated earlier.

Sincerely,

Jos Dronkers
Summerland

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Re: Petition Results opposing Banks Crescent Rezoning

Dear Mayor, Dear Council Members,

Undersigned herewith submits to you the additional petition results since the last submission on February 14th regarding the Rezoning of 13610 Banks Crescent: 86 additional signatures opposing the proposed development. In total we now have 1227 signatures as per February 27, 2017. The petition is still open and the number of signatures will likely grow.

Important is that the people that oppose this development come from all over Summerland and beyond and not just Lower Town. Although the proposed development will have a profound impact on the character of Lower Town, we strongly believe, as you know, that the development will also have a significant impact on all of Summerland for the many reasons communicated earlier.

Sincerely,

Jos Dronkers
Summerland

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Re: Petition Results opposing Banks Crescent Rezoning

Dear Mayor, Dear Council Members,

Herewith please find attached the supplementary petition results since the last submission March 13th, 2017 regarding the Rezoning of 13610 Banks Crescent. There are 232 additional signatures opposing the proposed development. In total we now have 1625 signatures as of April 10, 2017. The petition is still open and the number of signatures will grow.

Important is, the people that oppose this development come from all over Summerland. We strongly believe that the proposed development will have a negative impact on the character and future of Summerland and would set a precedent for an "anything goes" attitude, ignoring risk, the need for healthy aging and, as mentioned before, a green sustainable environment.

Sincerely,

Jos Dronkers
Summerland

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Re: Petition Results opposing Banks Crescent Rezoning

Dear Mayor, Dear Council Members,

Herewith please find attached the supplementary petition results since the last submission March April 10, 2017 regarding the Rezoning of 13610 Banks Crescent. There are 173 additional signatures opposing the proposed development. In total we now have 1798 signatures as of April 24, 2017. The petition is still open. Please be advised that since we started we have had limited capability and time to petition. We are dependent on those residents we inform, see at our occasional table set-up at Nestors or the IGA or sign at some of the businesses downtown. Despite that condition the numbers are growing because residents are eager to sign and be informed.

Important is, the people that oppose this development come from all over Summerland. As you know, we strongly believe that the proposed development will have a negative impact on the character and future of Summerland and would set a precedent for an "anything goes" attitude, ignoring risk, the need for healthy aging and, as mentioned before, a green sustainable environment.

Sincerely,

Jos Dronkers
Summerland

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

RECEIVED
APR 24 2017

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Attachments:	Accompanying Letter to Mayor-Council for Petition - 7th letter May 7-2017-Hand DeliveredMay8.docx

Dear Mayor Waterman, Dear Council Members, Dear Staff,

Undersigned herewith informs you that the supplementary petition results since April 24th, dd May 7, 2017, were hand delivered to Jeremy Denegar, Director of Corporate Services on May 8th during the Council Meeting. There are 343 additional signatures opposing the proposed development. In total we now have 2141 signatures as of end of day May 7, 2017. These numbers are meticulously tracked, signature by signature and documented in a spreadsheet. Please see attached the cover letter that was accompanying the package we handed to Jeremy.

We trust that you, our Mayor and Council, are ready to make the right decision with all the information, questions and knowledge transfer from your citizens in your possession. Furthermore we trust that you agree, that the future of Summerland must be mapped out and shaped by its citizens and not by developers.

Please, let common sense prevail. Thank you kindly.

Sincerely,

Jos Dronkers
Summerland

Re: Petition Results opposing Banks Crescent Rezoning

Dear Mayor, Dear Council Members,

Herewith please find attached the supplementary petition results since the last submission March April 24, 2017 regarding the Rezoning of 13610 Banks Crescent. There are 343 additional signatures opposing the proposed development.

In total we now have 2141 signatures as of May 7, 2017, a significant number, considering the limited capability and time we have to petition since we started in December 2016. We are dependent on those residents we inform, see at our occasional table set-up at Nestors or the IGA or sign at some of the businesses downtown. The petition is still open and the numbers are growing because residents are eager to sign and be informed.

Important is, the people that oppose this development come from all over Summerland. As you know, we strongly believe that the proposed development will have a negative impact on the character and future of Summerland and would set a precedent for an "anything goes" attitude, ignoring risk, the need for healthy aging and, as mentioned before, a green sustainable environment.

Please let the future of Summerland be mapped out and shaped by its residents, not the developers.

Sincerely,

Jos Dronkers
Summerland

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.

Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Re: Petition Results opposing Banks Crescent Rezoning

Dear Mayor, Dear Council Members,

Herewith please find attached the supplementary petition results since the last submission May 7, 2017 regarding the Rezoning of 13610 Banks Crescent. There are ~~343~~ 160 additional signatures opposing the proposed development.

In total we now have 2301 signatures as of May 23, 2017, a significant number, considering the limited capability and time we have to petition since we started in December 2016. We are dependent on those residents we inform, see at our occasional table set-up at Nesters or the IGA or sign at some of the businesses downtown. The petition is still open and the numbers are growing because residents are eager to sign and be informed.

Important is, the people that oppose this development come from all over Summerland. As you know, we strongly believe that the proposed development will have a negative impact on the character and future of Summerland and would set a precedent for an "anything goes" attitude, ignoring risk, the need for healthy aging and, as mentioned before, a green sustainable environment.

Please let the future of Summerland be mapped out and shaped by its residents, not the developers.

Sincerely,

Donna Wahl
On behalf of Jos Dronkers
Summerland

Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.

Petition to STOP the re-zoning of Agriculture Land at 13610 Banks Crescent, Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

RECEIVED
MAY 23 2017

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Summerland, BC, thus protecting Agricultural Land and our local Fish Hatchery.

Do you want to preserve Agricultural Land?
Do you want to save the fish hatchery?
Does it make sense to have a seniors' development in a high hazard, steep sloped area of Summerland?

Petition summary and background, petition sponsored by "Summerlanders for Sensible Development"	Keep 13610 Banks Crescent Zoned Agriculture, a.k.a. "Bristow Valley area". A proposal by the Lark group is before Summerland Council NOW to change the zoning to High Density Residential to allow residential and commercial development of a 4 building condo complex, the majority are six stories high totaling 380 units. As sponsors of this petition, we advocate to promote a key message of sensible development for Summerland. Our priorities are protection of agriculture, the protection of our local fish hatchery and our public safety which will be impacted by long term infrastructure damage, tax payer liability, traffic and red zone building hazards. Our concerns are that the development could cause landslides, destroy productive agricultural land and threaten the operation of our local oldest operating fish hatchery, which generates $100 million dollars yearly to the Southern BC Region.
Action petitioned for:	We, the undersigned, are concerned citizens who urge our Summerland Council to act now to NOT change the zoning from Agriculture to High Density which would allow the residential and commercial development at 13610 Banks Crescent which has the potential to destroy our fish hatchery.

Re: Petition Results opposing Banks Crescent Rezoning

Dear Mayor, Dear Council Members,

Herewith please find attached the supplementary petition results since the last submission June 12, 2017 regarding the Rezoning of 13610 Banks Crescent. There are 113 additional signatures opposing the proposed development.

In total we now have 2,551 signatures as of June 25, 2017, a significant number, considering the limited capability and time we have to petition since we started in December 2016. We are dependent on those residents we inform, see at our occasional table set-up at Nesters or the IGA or sign at some of the businesses downtown. The petition is still open and the numbers are growing because residents are eager to sign and be informed.

Important is, the people that oppose this development come from all over Summerland. As you know, we strongly believe that the proposed development will have a negative impact on the character and future of Summerland and would set a precedent for an "anything goes" attitude, ignoring risk, the need for healthy aging and, as mentioned before, a green sustainable environment.

Please let the future of Summerland be mapped out and shaped by its residents, not the developers.

Sincerely,

Donna Wahl
On behalf of Jos Dronkers
Summerland
