How to Use the Screened Compost

- Flowerbeds 1" or 2" mixed into the top 6" to 8" of soil
- Tubers and Bulbs 1 part compost to 4 parts soil
- Roses 1 part compost to 3 parts soil when planting
Topdress existing beds with up to 1" compost
- Vegetables 1 part compost to 4 parts soil
- Trees and Shrubs 1 part compost to 4 parts soil when planting
Topdress existing beds with 1/2" compost
- New Lawns 2" rototilled into top 6" soil before seed or sod
- Old Lawns Topdress with up to 1/4" compost
- Containers 1 part compost to 4 parts soil

The compost is made from bio-solids (processed sewage), grass, leaves, fruit, vegetables and wood chips. This product may be used as part of a complete fertilizer program that relates to the fertility level of the soil.
