
Media Release

For Immediate Release

DATE: June 13, 2018

In January 2018 Sahuri + Associates Architecture Inc. were hired to redesign the “old library” at 9545 Wharton Street to better serve the community as an Arts & Cultural Centre. The District has been working with representatives from current user groups and the Summerland Arts Council and Potters Guild to determine the priorities for the renovation project. These two arts organizations leased space in the former “town hall” at 9533 Main and will be core tenants in the newly renovated building.

On the evening of June 26, from 4:30- 8:00pm the architects will be in attendance at an Open House at 9545 Wharton Street to share the draft plans to date.

The District is seeking public comments in order to create a space that will best serve the community. Please join us to see how the space is being re-imagined and share your comments.
