

Climate Action Summerland- Flag Project

Summerland Secondary School students invite everyone of all ages to show you care about our home! Tie a flag onto to the fence alongside Jubilee Rd W and help demonstrate that we need change

All DAY Sunday April 25th pre-cut pieces of fabric will be left in the High School Field by the gate between the skate park and Kelly Ave. Bring your own sharpie or writing device and add a flag to the fence.

What to write on your flag? Write about a passion or concern you have regarding climate change or the environment. It can be a fact, the way you are taking action to protect our environment, why climate action is important to you, or even something you love to do outside. If you like, sign your flag with your name and age and finish by securely tying end ends flag to the fence.

Busy on the 25th? No worries, everyone is invited to add their own flag anytime
