

Addendum No. 1

Issued: Thursday, March 7, 2019

RFP-2019-07

SUMMERLAND SANITARY LANDFILL OZONE DEPLETING SUBSTANCES AND OTHER HALOCARBONS REMOVAL

**Addendum No. 1 consists of:
Questions and Answers: Safety Document, Previous Quantities, Insurance and Transfer of Risk**

The RFP documents for this work are revised as noted herein. All such revisions become a part of the work and shall be included in your Proposal. No consideration will be allowed for extras due to the Proponent not being familiar with this Addendum.

1. Reference: Answers to Questions and comments Received:

The following are answers and amendments to the questions and comments received:

Q01	I cannot open the Additional Document attachment.
A01	The District has reattached the Additional Document – Contractor Safety Requirements
Q02	What are the quantities for the previous years?
Q02	Typically, we range from 700 – 950 per year. Quantities for previous years are: 2014 – 943 2015 – 681 2016 – 795 2017 – 878
Q03	The insurance liability levels in the RFP appear high and the cost of obtaining (ie. Pollution/Environmental Insurance at \$5,000,000) would be costly, if at all possible.
A03	The District has assessed the risk as medium-high, therefore the Insurance levels reflect the risk due to the Environmental aspect of the work. The General Services Agreement and Schedule A are attached as a “Sample”. Should a proponent have concerns with the Insurance levels as requested, the District recommends that a proponent submit their proposal with two price proposals for the work: One with the Insurance levels that they currently have or are able to obtain and the Second with the Insurance levels that the District has indicated in the RFP and build the price of increasing Liability in the second proposed price.

2. Addition of Transfer and Ownership of Risk Clause:

Risk – the ownership and risk of the removed product transfers to the Contractor as soon they leave the District of Summerland Sanitary Landfill Site.

End of Addendum 1.
