The following are answers to the questions received:

<b>Q01</b>	The scope of work proposed in the Summerland RFP seems to be too extensive given the limited available funding. It is our opinion that the proposed amount of \$17,000 would be sufficient for the “assessment phase”, but not for the development of a solid “action plan”.
A01	<p>When the District undertook the funding application, staff planned a very high-level assessment and plan on all eight points, because no such work has yet been undertaken in an Age-Friendly context for Summerland:</p> <ul style="list-style-type: none"><li>• Outdoor spaces and buildings; Transportation; Housing; Respect and Inclusion; Social Participation; Communications and Information; Civic participation and employment, and Community Support and Health Services</li></ul> <p>Staff understands that work on this many subject areas will not be in-depth, but with the grant funding available staff hope to be able to create a baseline assessment from which more work can be done. Staff may be directed to create a phased project by applying for the next round of grant funding once this first assessment and high-level planning is done.</p>
