## DRIVEWAY AND DRIVEWAY ACCESS REQUIREMENTS

- Location of Driveway Accesses
  - For all urban and rural residential zones, driveway accesses located on the corner lots must be a minimum of 5m from the lot corner nearest the intersection.
  - For commercial, industrial, agricultural, institutional, comprehensive and multifamily zones, driveway accesses located on corner lots must be a minimum of 12m from the property line of the adjoining (perpendicular) road.
- Driveways and Driveway Accesses 45 meters (150 ft.) or less in length
  - Minimum driveway width shall be 3.6 meters (12 ft.)
  - Maximum driveway grade shall not exceed 20% for single lots
- Driveways and Driveway Accesses greater than 45 meters (150 ft.) in length
  - Minimum driveway width shall be 5 meters (16 ft.)
  - Maximum driveway grade shall not exceed 12%
- Minimum Driveway and Driveway Accesses surface shall be compacted all-weather gravel surface
- All driveway drainage needs to be retained onsite. All proposed driveways that grade towards a public road must make drainage considerations at property line.

## APPLICATION FOR ACCESS PERMIT CHECKLIST

### **COMPLETED APPLICATION FORM**

Be sure to complete all of the required fields on the front of this sheet. Double check that the information provided is accurate and up to date.

### **CURRENT CERTIFICATE OF TITLE FOR SUBJECT LAND(S) (WITHIN THE LAST 90 DAYS CURRENT)**

And all relevant land title charges (easements, SROW, DP's or any item on registered title that is applicable). A title search is available for purchase through the District for a fee.

### **COMPLIANCE WITH DRIVEWAY ACCESS BYLAW**

Be sure that your application complies with all the conditions set out in the most recent, up to date version of the Driveway Access Bylaw No.92-047.

### **ATTACH A SITE PLAN**

Ensure that the site plan is drawn to scale and shows the following:

- Proposed building location and distance from the road.
- Proposed driveway access location including offsets from the property lines, width, grade, surfacing material and drainage considerations.
- Lot dimensions and property lines.
- Existing accesses, culverts, utility poles, structures and all other features located within the highway right-of-way.
- The angle at which the access meets the highway right of way (between 70° and 110°).
- Site Plan must show the fire staging area and turnaround for driveways 61m or longer.
- Additional information may be required by the District.
- Is a Development, Building or Earthworks Permit required? Consult with Development Services Department.

Please note that applications and drawings may be submitted electronically in Adobe PDF format, but must be accurate, include all dimensions, and be to scale.

Professionally drafted plans are preferred and only complete applications will be accepted.
