Toys

# CONSIDER THE ENVIRONMENT THIS HOLIDAY SEASON

## Zero Waste Gift Wrapping

- \* Consider wrapping gifts in old newspapers, maps, book pages, or other recyclable paper products and not foil wrap.
- \* Avoid extras like bows or ribbons which are not recyclable. Instead, embellish gifts with things like pressed flowers, which can be composted when finished using.
- \* Use cloth or reusable bags as they can be repurposed as grocery bags after.

## Green Gift Giving

- \* Give experiences like concert or hockey tickets instead of items that may go unused and end up in landfills.
- \* Gift homemade items like baking or knitting.
- \* Purchase items second hand. Many second hand items, like books, are used once then donated. Purchasing second hand reduces your environmental footprint.
- \* Purchase local or made-in-Canada goods.

## PLEASE NOTE

- \* The Summerland Sanitary Landfill is located at 17202 Bathville Road.
- \* Regular hours of operation are Monday to Saturday, 8:30am to 4:15pm. The landfill is closed on Sundays, Statutory Holidays and on Boxing Day.
- \* The Landfill is subject to unexpected closures due to fast-changing environmental factors.
