

INSTRUMENTATION / ELECTRICAL TECHNICIAN

If you are a self-starter who enjoys prioritizing and planning your work in an ever-changing environment this position is for you! The day to day role involves troubleshooting and maintenance of a variety of electrical controls and components, switchgear, electrical motors and other equipment, including SCADA. The successful candidate will thrive at playing a key role within our Water and Wastewater departments, in our Aquatic Centre and Ice Arena, along with balancing a wide variety of electrical tasks in municipal buildings and on equipment.

The ideal candidate will have a BC or Inter-provincial Journeyman Certificate in the Electrician trade with preference given to an applicant that also has an inter-provincial Red Seal Certificate in Industrial Instrumentation and Process Control. Five years of experience in commercial and industrial plant environments along with a Field Safety Representative-Level "B" certification would perfectly match the experience we are seeking.

If you are interested in working together with a group of skilled and dedicated individuals in a full-time CUPE position at the District of Summerland, please visit www.summerland.ca/jobs for full position details. Remuneration includes an hourly rate of \$34.53 to \$36.35, a competitive benefits package and pension.

A resume and cover letter (in pdf format) quoting Competition No. 19-02 will be accepted until Monday, January 28th. Please email to hr@summerland.ca.

We thank all applicants for their interest, however only those candidates selected for further consideration will be contacted. The hiring process can be followed on our website at www.summerland.ca.
