

IMPORTANT: Summerland Cart Delivery is Delayed

The manufacturer of the garbage, recycling, and yard & garden waste collection carts for the Curbside Collection Program had a mechanical breakdown during production. The manufacturer has indicated that delivery will be **delayed until the middle of July 2018**.

Garbage, recycling and yard & garden waste will continue to be collected as usual until your carts arrive.

You may begin to use the carts as soon as they arrive, with no change in the current curbside collection cost. The District of Summerland will begin invoicing for the new Curbside Collection service August 1, 2018.

PLEASE NOTE: Both the last week of June (June 26 to 29) and the first week of July (July 3 to 9) will be yard & garden waste collection, with alternating bi-weekly recycling and yard & garden waste collection to follow (see calendar below). Your collection day of the week will not change.
