BOIL WATER NOTICE

Boil Water Notice

The District of Summerland wishes to notify **ALL USERS** of the Summerland Water System that a Boil Water Notice has been issued.

In order to protect fireflows in the Community, the District has bypassed the Water Treatment Plant which is under threat due to fire proximity and untreated water has entered the system.

Interior Health and the District of Summerland recommend that **ALL USERS** use water that has been boiled or use a safe alternative. Water should be boiled for one minute and allowed to cool before use.

Residents will be notified when the Boil Water Notice has been lifted.
